Condition 39

Naturally Occurring Asbestos

Prior to any grading activities associated with the project, the project proponent shall ensure that a geologic evaluation is conducted to determine if Naturally Occurring Asbestos (NOA) is present within the area that will be disturbed. If NOA is not present, an exemption request must be filed with the District. If NOA is found at the site, the applicant must comply with all requirements outlined in the Asbestos ATCM. This may include development of an Asbestos Dust Mitigation Plan and an Asbestos Health and Safety Program for approval by the APCD. Please refer to the APCD web page at http://www.slocleanair.org/business/asbestos.asp for more information or contact the APCD Enforcement Division at 781-5912.

Evidence of compliance:

Please refer to the attached letter from APCD providing a geologic exemption for the Los Osos Wastewater Project, based on no known naturally occurring asbestos in the project area.

Kate Ballantyne Environmental Resource Specialist County of San Luis Obispo – Public Works County Government Center, Room 207 San Luis Obispo, CA 93408

SUBJECT:

Naturally Occurring Asbestos ATCM – Geologic Exemption Request Granted for Los

Osos Wastewater Treatment Facility

Dear Ms. Ballantyne:

Thank you for your submittal for exemption from California Code of Regulations Section 93105 (Naturally Occurring Asbestos ATCM) dated January 20, 2012. After review of the documentation, the District agrees with the geological evaluation and grants your request for exemption for the scope of evaluations for the Los Osos Wastewater Treatment Facility.

Expiration of the Geologic Exemption: If the County of San Luis Obispo or its contractors subsequently discover any naturally occurring asbestos, serpentine, or ultramafic rock in the area to be disturbed, then:

- County of San Luis Obispo or operator must comply with the requirements of CCR 93105;
- County of San Luis Obispo or operator must report the discovery of the naturally-occurring asbestos, serpentine, or ultramafic rock to the APCO no later than the next business day; and
- 3. The exemption under CCR 93105 subsection (c) (1) shall expire and cease to be effective.

As you know, there are additional requirements in place (i.e. Construction Activity Management Plan) and the potential for California statewide portable equipment registration (issued by the California Air Resources Board) or a District permit for certain equipment. Please contact the District's Engineering Division at (805) 781-5912 for specific information regarding registration or permitting requirements.

If you have any questions, please contact me at (805) 781-5918.

Sincerely,

TIM FUHS

Air Quality Specialist
